Copyright and confidentiality

Copyright in this document vests in Hitachi Energy.

Manuals and software are protected by copyright. All rights reserved. The copying, reproduction, translation, conversion into any electronic medium or machine scannable form is not permitted, either in whole or in part. The contents of the manual may not be disclosed by the recipient to any third party, without the prior written agreement of Hitachi Energy. An exception is the preparation of a backup copy of the software for your own use. For devices with embedded software, the end-user license agreement provided with the software applies.

This document may not be used for any purposes except those specifically authorized by contract or otherwise in writing by Hitachi Energy.

Disclaimer

This document contains information about one or more Hitachi Energy products and may include a description of or a reference to one or more standards that may be generally relevant to the Hitachi Energy products. The presence of any such description of a standard or reference to a standard is not a representation that all the Hitachi Energy products referenced in this document support all the features of the described or referenced standard. In order to determine the specific features supported by a particular Hitachi Energy product, the reader should consult the product specifications for that Hitachi Energy product. In no event shall Hitachi Energy be liable for direct, indirect, special, incidental, or consequential damages of any nature or kind arising from the use of this document, nor shall Hitachi Energy be liable for incidental or consequential damages arising from the use of any software or hardware described in this document.

Hitachi Energy may have one or more patents or pending patent applications protecting the intellectual property in the Hitachi Energy products described in this document. The information in this document is subject to change without notice and should not be construed as a commitment by Hitachi Energy. Hitachi Energy assumes no responsibility for any errors that may appear in this document.

All people responsible for applying the equipment addressed in this manual must satisfy themselves that each intended application is suitable and acceptable, including compliance with any applicable safety or other operational requirements. Any risks in applications where a system failure and/or product failure would create a risk for harm to property or persons (including but not limited to personal injuries or death) shall be the sole responsibility of the person or entity applying the equipment, and those so responsible are hereby requested to ensure that all measures are taken to exclude or mitigate such risks.

Products described or referenced in this document are designed to be connected and to communicate information and data through network interfaces, which should be connected to a secure network. It is the sole responsibility of the system/product owner to provide and continuously ensure a secure connection between the product and the system network and/or any other networks that may be connected.

The system/product owners must establish and maintain appropriate measures, including, but not limited to, the installation of firewalls, application of authentication measures, encryption of data, installation of antivirus programs, and so on, to protect these products, the network, its system, and interfaces against security breaches, unauthorized access, interference, intrusion, leakage, and/or theft of data or information.

Hitachi Energy performs functionality testing on released products and updates. However, system/product owners are ultimately responsible for ensuring that any product updates or other major system updates (to include but not limited to code changes, configuration file changes, third-party software updates or patches, hardware change out, and so on) are compatible with the security measures implemented. The system/product owners must verify that the system and associated products function as expected in the environment in which they are deployed. Hitachi Energy and its affiliates are not liable for damages and/or losses related to security breaches, any unauthorized access, interference, intrusion, leakage, and/or theft of data or information.

This document and parts thereof must not be reproduced or copied without written permission from Hitachi Energy, and the contents thereof must not be imparted to a third party nor used for any unauthorized purpose.

1 Open Source Software Declaration

1.1 Third party licenses applicable to this product

This product aggregates software with various applicable licenses. You can find the list of applicable third party licenses and/or the applicable third party license texts in the following files included in the delivered FOXMAN-UN software:

- After FOXMAN-UN installation, third party license information is available in the following folder:

```
/opt/nem/share/doc/thirdparty_licenses/
```

If the applied license on the third party software includes the possibility to request the source code, you may obtain the corresponding source code from Hitachi Energy Switzerland Ltd for a period of three years after our last shipment of this product, by sending a money order or check in the amount of CHF 100.00 to:

Hitachi Energy Ltd
Bruggerstrasse 72
5400 Baden - Switzerland

Please write "source for third party <component name>" in the memo line of your payment. Replace <component name> by the name of such third party open source component.

Hitachi Energy Ltd
Bruggerstrasse 72
5400 Baden - Switzerland
